 3 designated §18-2-41; and that said code be amended by adding thereto a new section,
 4 designated §18B-2A-9, all to read as follows:

CHAPTER 11. TAXATION.

ARTICLE 21. PERSONAL INCOME TAX.

§11-21-25. Stay in State Tax Credit.

1 (a) Credit allowed.-- To promote the retention of recent in-state college graduates, there
 2 is hereby created a tax credit for repayment of student loans against West Virginia personal
 3 income tax, available to those individuals that remain in West Virginia following graduation from
 4 an accredited West Virginia community college, college or university. A qualified individual or an
 5 employer of a qualified individual is allowed a credit against the tax imposed by this article in
 6 accordance with the provisions of this section.

7 (b) A taxpayer entitled to the credit for any taxable year may carry over and apply to the
8 tax liability for any one or more of the next succeeding ten years the portion, as reduced from year
9 to year, of any unused credits.

10 (c) A taxpayer may claim a credit based on loan payments actually made to a relevant
11 lender or lenders under this section only with respect to loans that are part of the qualified
12 individual's financial aid package and, for tax years beginning on or after January 1, 2018, only
13 with respect to loan payment amounts paid by the taxpayer during that part of the taxable year
14 that the qualified individual worked in this state. Payment of loan amounts in excess of the
15 amounts due during the taxable year does not qualify for the credit. Refinanced loans that are
16 part of the qualified individual's financial aid package are eligible for the credit under this section
17 if the refinanced loans remain separate from other debt, including debt incurred in an educational
18 program other than the degree program for which a credit is claimed under this section.
19 Forbearance or deferment of loan payments does not affect eligibility for the credit under this
20 section.

21 (d) Except as provided in subsection (g), the credit under this section may not reduce the
22 tax otherwise due under this part to less than zero.

23 (e) Calculation of the credit. The credit with respect to a qualified individual is equal to the
24 amount determined under subdivision (1) or subdivision (2), whichever is less, multiplied by the
25 proration factor:

26 (1) The benchmark loan payment multiplied by the number of months during the taxable
27 year in which the taxpayer made loan payments; or

28 (2) The monthly loan payment amount multiplied by the number of months during the
29 taxable year in which the taxpayer made loan payments.

30 (f) The credit under subsection (e) for an individual who transferred to an accredited West
31 Virginia community college, college or university from an accredited non West Virginia community
32 college, college or university on or after January 1, 2017, and who earned no more than thirty

33 credit hours of course work toward the degree at an accredited non West Virginia community
34 college, college or university is equal to fifty percent of the amount otherwise determined under
35 this section in the case of an associate degree and equal to seventy-five percent of the amount
36 otherwise determined under this section in the case of a bachelor's degree.

37 (g) Notwithstanding subsection (d), the credit under this subsection is refundable to the
38 extent the credit is based on loans included in the financial aid package acquired to obtain a
39 bachelor's degree or associate degree in science, technology, engineering or mathematics. For
40 purposes of this subsection, the proration factor is the amount derived by dividing the total number
41 of academic credit hours earned for a bachelor's or associate degree on or after January 1, 2014,
42 by the total number of academic credit hours earned for the bachelor's or associate degree.

43 (h) Employer eligible to the credit.-- An employer may qualify for the credit for a qualified
44 employee. A taxpayer constituting an employer making loan payments directly to a lender during
45 the taxable year on loans included in a qualified employee's financial aid package may claim a
46 credit equal to the benchmark loan payment or the actual monthly loan payment made by the
47 employer on the loans, whichever is less, multiplied by the number of months during the taxable
48 year the employer made loan payments on behalf of the qualified employee during the term of
49 employment. The credit under this subsection may not be claimed with respect to months of the
50 taxable year during which the employee was not a qualified employee. If the qualified employee
51 is employed on a part-time basis during the taxable year, the credit with respect to that employee
52 is limited to fifty percent of the credit otherwise determined under this subsection.

53 (i) The department shall assist the Governing Boards of West Virginia community colleges,
54 colleges and universities with their participation in the "Stay in State Tax Credit" as provided in
55 section nine, article two-a, chapter eighteen-b of this code. The department shall provide to the
56 boards appropriate materials and assistance needed to educate students on how to qualify and
